Arabian Journal for Science and Engineering

# Call for Papers

The Arabian Journal for Science and Engineering (**AJSE**) is a well established, peer-reviewed, ISI journal published and owned by King Fahd University of Petroleum & Minerals (KFUPM), Dhahran, Saudi Arabia, since 1975.

We are happy to announce that starting January 2011, **AJSE** has been published by the prestigious international publisher, **Springer Publishing**.

Springer will publish market and distribute the journal as part of its program to further increase the circulation and the impact of the journal.

Springer Publishing aims to deliver the contents of **AJSE** to a truly regional and global audience. The new and enhanced online submission provides access to additional information and discoverability that is aided by related article and compound linking.

The journal's aims and scope provide a broader range of coverage that includes the science disciplines of Chemistry, Earth Sciences, and Physics, and the Mathematical Sciences disciplines, in addition to the engineering disciplines of Civil, Chemical, Electrical, Mechanical, Petroleum, Computer Science and Engineering, and Systems Engineering, together with a theme / special issue on specific topics.

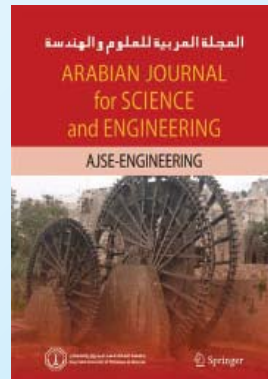

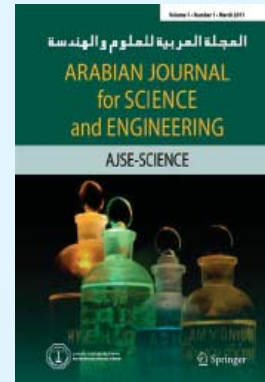

As AJSE begins its thirty sixth year, we are enjoying an increase in readership and in quality manuscript submissions. Due to the large amount of submissions, AJSE now publishes eight issues per year of rigorous and original contributions.

We are very proud to present our new journal design that consists of three sections: AJSE-Engineering, AJSE-Science, and AJSE-Mathematics.

We strongly encourage researchers and scientists worldwide to submit their high quality articles for consideration by AJSE. We have an energetic and dedicated editorial board and office to ensure that submitted articles will be reviewed and published rapidly.

**AJSE** is abstracted / indexed by Science Citation Index (SciSearch), Ulrich's Periodical Directory, MathSciNet, Zentralblatt Math, Chemical Abstracts, Academic Search, CSA, Current Abstracts, Current Contents/Engineering, Computing and Technology, Current Index to Statistics, Earthquake Engineering Abstracts, EBSCO, Engineered Materials Abstracts, Google Scholar, INIS Atomindex, Mathematical Reviews, OCLC, ProQuest, PsycINFO, SCOPUS, and Summon by Serial Solutions.

**AJSE** publishes original research articles, invited review articles, technical notes and technical reports that add significantly to

the body of knowledge concerning the science and engineering.

### MANUSCRIPT SUBMISSION

The **AJSE** operations (submission, review, and tracking) are conducted online ONLY using the online tracking system "Editorial Manager".

Manuscripts should be submitted online ONLY at: <http://www.editorialmanager.com/ajse/>

For more information, please visit the **AJSE** websites <http://ajse.kfupm.edu.sa>

<http://www.springer.com/engineering/journal/13369>

and

<http://www.springerlink.com/content/1319-8025>

The Journal Websites contains back and recent issues of the **AJSE** and also details of the editorial board, calls for papers, access to the editorial manager, etc.
